Product Specification Sheet

BioWorld Odor Neutralizer (BON)

BioWorld Odor Neutralizer (BON) is a concentrated liquid organic formulation that eliminates offensive odors at the source. BON consists of all natural odor neutralizing compounds made from biodegradable ingredients extracted from freshly grown agricultural plant material. BON concentrate is safe even in contact with human skin or animals. While most products only mask odors with strong scents like perfumes, BON totally neutralizes and extinguishes unpleasant odors without leaving a cover-up scent. BON can be used in concentrated form or diluted to treat virtually any odor challenge in air, water or surface applications. BON is environmentally safe, non-hazardous, non-toxic, non-corrosive and non-flammable.

Composition and Physical Properties

Natural Odor Neutralizing Compounds

Minerals & Esters

Fragrance Compounds

Surfactant

Preservative

pH: 6.0-8.0 at 25°C

Boiling Point: 100°C

Freezing Point: 1.0°C

Solubility in Water: 100%

Specific Gravity: 1.0028

Appearance: Off-White

Odor: Slight Mint Scent

BON can be misted or fogged into the air or applied directly to the odor source.

#45027—2 ounce sprayer, 59 milliliters

#45326—32 ounces, 1 liter

#45014—1 gallon, 3.8 liters

#45054—5 gallons, 19 liters

#45250—250 gallons, 950 liters
